I am a self-taught Java Programmer with diverse Web Designing experience and seeking to obtain a specialization in Android Development.

INTERNSHIP

Full Stack with MERN, CETPA 07/2023 – 08/2023 | Ghaziabad

- Demonstrated proficiency in utilizing React to build highly interactive and responsive front-end components for seamless user experiences.
- Actively collaborated within a team, employing the MERN stack, to develop and optimize web applications, ensuring efficient and cohesive functionality across the platform.
- Assumed a pivotal front-end development role, focusing on the strategic design and implementation of user interfaces to captivate and enhance overall user engagement and satisfaction.

Java Programmer Intern, Oasis Infobyte

03/2023 – 04/2023 | Ghaziabad

- Successfully completed two projects as a Java Developer intern, showcasing hands-on experience and an understanding of Java programming principles.
- Proficient in Java, evidenced by the ability to write clean, maintainable code and apply industry best practices and design patterns, ensuring efficient and robust programming.
